The following is an examiner's statement of reasons for allowance: The documents cited in the latest filed information disclosure statement fail to anticipate or make obvious the claimed invention. They do not recite the combination of coal tar, water, acrylonitrile-butadiene powder and clay in the ratios of the instant claims. For example, GB 638507 fails to teach the required amounts of clay and fails to teach substitution of coal tar for the asphalt used therein. The instant specification establishes that the use of coal tar as opposed to asphalt and the particular proportions claimed are critical to the practice of the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Brunsman whose telephone number is 571-272-1365. The examiner can normally be reached on M, W, F, Sa; 6:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
